So. & Co. aim is to build up a new local welfare:

*It applies the principle of horizontal subsidiarity and represents the interests of its members, developing in an entrepreneurial and supportive way the different components of the local community.*

*The Consortium intends to become a social enterprise highly integrated with the territory (Community Enterprise), politically independent, which considers the welfare in a broader sense and not only for the traditional activities carried out by the subjects of cooperation.*

*from "Development program of the network consortium 2006-2008"*
